

# Print from your Laptop Computer (Window XP/Vista/7) or Mac

## *For Vista/Windows 7 only*

*Please note that in order for the wireless printing to work on Vista or Windows 7 laptops, the User Account Control (UAC) needs to be set to “never notify”. To change or verify this setting, go to the Windows Start Menu, select Control Panel, type UAC in the “Search Control Panel box”, click on the Change User Account Control settings link, then select Never Notify. Restart the laptop then continue with the instructions below. If you are uneasy selecting this option, you will not be able to use our wireless printing. Please use one of our public workstations to download and print your document.*

## Installing LPT:One Print Client

You can easily connect to our printing system from your laptop computer using wireless networking, and print to the public printers. Point your browser to [http://www.scottsdalelibrary.org/content/wifi\\_printing](http://www.scottsdalelibrary.org/content/wifi_printing) and select your current branch location. The following page will appear:

Begin by downloading the LPT:One print Client for Windows or for Mac (Intel only).

## Installing via Internet Explorer

1. Click Run to run the installer (clientlauncher.exe) from its current location.

Tip! You can save the clientlauncher.exe file to your desktop and keep it there for next time you like to print.

# Print from your Laptop Computer (Window XP/Vista/7) or Mac

Just double-click on the file to run it.

Internet Explorer displays a Security Warning box.

2. Click Run. The system installs the LPT:One Print Client and minimizes to the taskbar.

## Installing via Firefox

1. Click Save File

2. Click OK.

# Print from your Laptop Computer (Window XP/Vista/7) or Mac

3. Double-Click clientlauncher.exe

4. Click OK. The system installs the LPT:One Print Client (pictured below) and minimizes to the taskbar.

Please note! There is nothing permanently installed on your computer.

## Installing Mac Client

Download the LPT One Mobile Print Client and save it to your desktop or any other location you prefer.

Double-Click the client to start the program. Make sure it is running in the Dock.

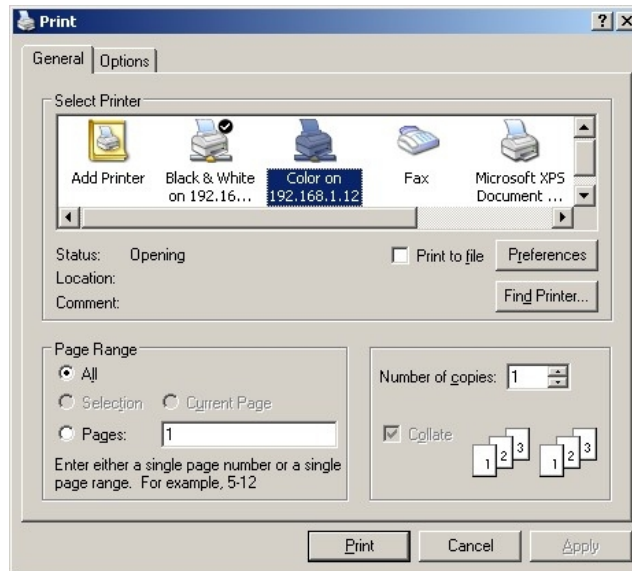

Our two printers (Black and White and Color) should now be available in the Printer list.

## Printing Instructions

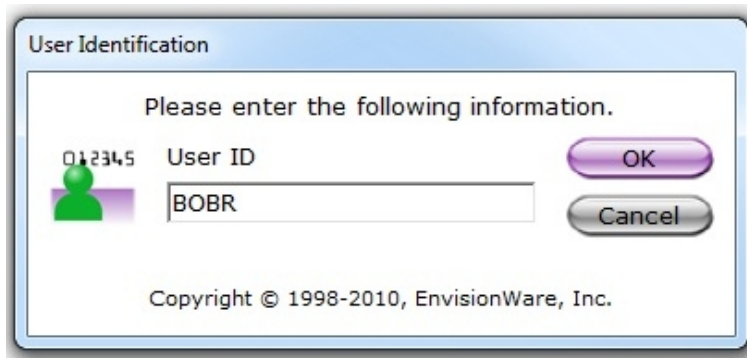

# Print from your Laptop Computer (Window XP/Vista/7) or Mac

The LPT:One Print Client must be running in the background to print to our printers.

1. Select the option to print.
2. Select either Black and White (default) or **Color** and number of copies, and click Print.

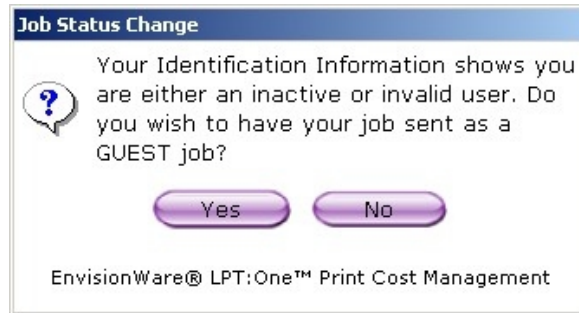

3. When prompted for User ID, enter your name.

You must remember this identification when you pick up your print job at the LPTOne Print Station.

4. Click Yes to submit the print job

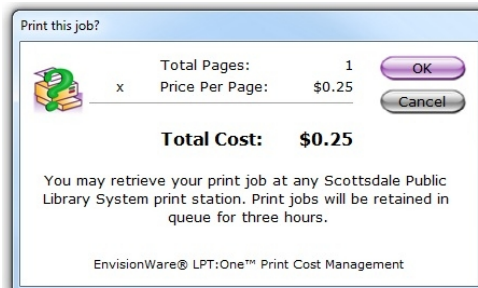

# Print from your Laptop Computer (Window XP/Vista/7) or Mac

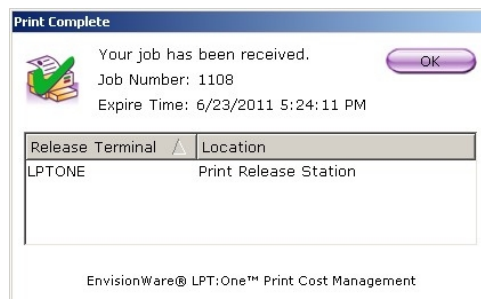

5. The following screen will appear to let you know that your job is being submitted.

6. The following screen will come up to show you the total cost of your print job. Click OK.

7. Click OK.

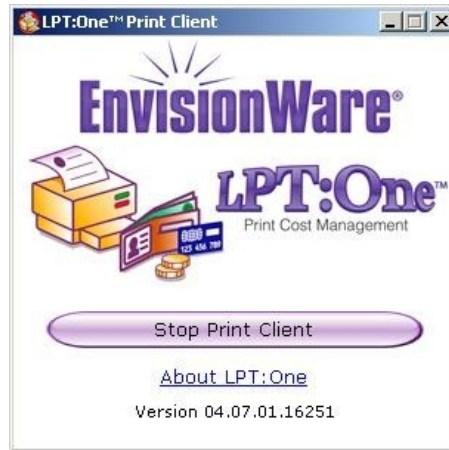

**Warning! Please notice the Expire Time. You have to print before your time is up.**

# Print from your Laptop Computer (Window XP/Vista/7) or Mac

## Closing the LPT:One print Client.

1. Open the LPT:One Print Client by clicking on the button in the taskbar.

- 2 Click Stop Print Client

The LPT:One Print Client closes, and restores your previous default printer.

Note! When you shut down or log off your computer, the LPT:One Print Client will automatically close.

Please go to the Print Release Station by the Public Computer Area to pay for and release your job.
